

A

## TAKE NOTE

There are cheaper chasing hammers available, but ours are better engineered with a metal wedge and oblong hole in the head to assure that handles do not loosen and twist. So in the long run, you'll be happier with our quality, aside from years of service.

B

## HAMMER TIP

If you are in a dry climate where wood shrinks and the handle becomes slightly loose, simply put the head in a jar of anti-freeze overnight and it will tighten and stay tight.

## CHASING HAMMERS

Chasing hammers have a large face for striking chasing tools or flattening. The pein side is for riveting and metal design. The forged head is wedge-mounted on a hardwood handle. Our chasing hammers are without question the best in this price range. Slightly rounded faces with an overall length of 11".

Stock #	Face Dia.	Head Weight	
A. HAM-150.00	25mm (1")	3 oz.	\$12.15
HAM-151.00	28mm (1 1/8")	4 oz.	\$12.75
HAM-152.00	32mm (1 1/4")	6 oz.	\$13.85

## CHASING HAMMERS

Our new "German Style" chasing hammer is a high quality tool. The handle is hardwood featuring a wedge and oblong hole to keep the head from turning. The large face is flat and the pein side is slanted for better ergonomics when striking metal. This is a more popular style with European silversmiths, and preferred by many worldwide. The head is high grade stainless steel which has been case-hardened for long life.

Stock #	Face Dia.	Head Weight	
B. HAM-160.00	25mm (1")	3 oz.	\$12.80
HAM-161.00	28mm (1 1/8")	4 oz.	\$13.40
HAM-162.00	32mm (1 1/4")	6 oz.	\$14.60
HAM-160.50	Handle Only		\$4.25

## BALLPEIN HAMMERS

Made of drop-forged steel, mounted on hardwood handles and secured with a metal wedge.

Stock #	Length	Weight	
C. HAM-430.01	8 5/8"	2 oz.	\$4.40
HAM-431.00	10 3/8"	4 oz.	\$5.90
HAM-430.08	10 1/2"	8 oz.	\$6.45

## BRASS HAMMER

This small brass hammer with hardwood handle will give the user years of service. The head is 5/8" diameter and weighs 3 oz. You'll like the balance and feel of this quality hammer.

Stock #	Length	
D. HAM-215.00	9 1/8"	\$6.95

## BRASS HAMMER DELUXE – FLAT/BALLPEIN

This 2 oz. hammer features a superb quality solid brass head threaded onto an anodized aluminum handle. A special compound is used to assure the head cannot release. The handle is hex-shape to prevent slipping. Made in USA.

Stock #	Length	
E. HAM-130.00	8"	\$13.30

## RIVETING HAMMERS

One end is flat for general purpose and the other is chisel-shaped for spreading rivet heads. Handles are seasoned ash. Two models to choose from, both made in Germany.

Stock #	Face Dia.	Head Length	Weight	
F. HAM-200.00	Round, 3/8"	3"	2.5 oz.	\$22.00
G. HAM-202.00	Square, 1/2"	3"	4 oz.	\$11.75

## GOLDSMITH HAMMER

The black 3.5 oz. head is 3" long with a 5/8" (16mm) polished face. Our hammer has a hardwood handle and is made in Europe for years of service because it is drop-forged and case-hardened.

Stock #	Length	Head Length	Weight	
H. HAM-210.00	12"	3"	3.5 oz.	\$28.30

**SWISS-STYLE HAMMER**

Small, handy Swiss-style hammer for riveting, shaping, etc. A must for light precision work.

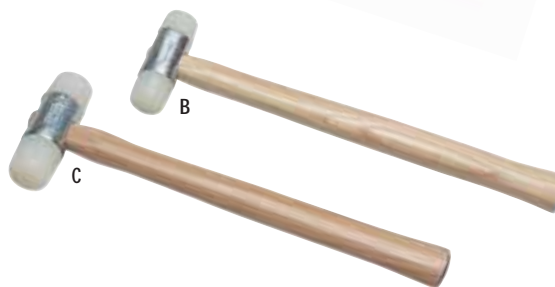

Stock #	Length.	Head Length	Weight	
A. HAM-212.00	9 1/8"	2 3/4"	2 oz.	\$4.85

**NYLON HAMMERS**

Our German-made hammers with nylon faces offer the best in quality and value. Each hammer has a seasoned ash handle with a drop forged head and two durable nylon faces. Spare faces are available by the pair in high-impact nylon and simply come off with a half-turn.

Stock #	Description	
B. HAM-360.05	7/8" (22mm) Face Diameter Nylon Hammer	\$10.75
C. HAM-365.05	1 1/16" (27mm) Face Diameter Nylon Hammer	\$12.45
HAM-360.15	7/8" (22mm) Replacement Faces - pair	\$3.55
HAM-365.15	1 1/16" (27mm) Replacement Faces - pair	\$4.40

**HAMMERS with DETACHABLE FACES**

Mallets with interchangeable faces and shellacked hardwood handle. Replacement faces available to allow any combination of brass, nylon or fibre. Face diameter 5/8". Overall length 9 1/4".

Replacement faces available in brass, nylon or fibre.

Stock #	Description	
D. HAM-370.04	Brass & Fibre Hammer, 4 oz.	\$9.89
E. HAM-370.05	Brass & Nylon Hammer, 4 oz.	\$9.89
HAM-370.10	Brass Insert	\$1.25
HAM-370.14	Fibre Insert	\$1.25
HAM-370.15	Nylon Insert	\$1.25

*Caution: Always wear proper face and eye protection.*

**HAMMER with FOUR FACES**

This larger hammer offers the user several good options. Sold as a "kit", it features interchangeable nylon, brass, fiber and rounded brass faces for multiple uses. Additional faces sold separately.

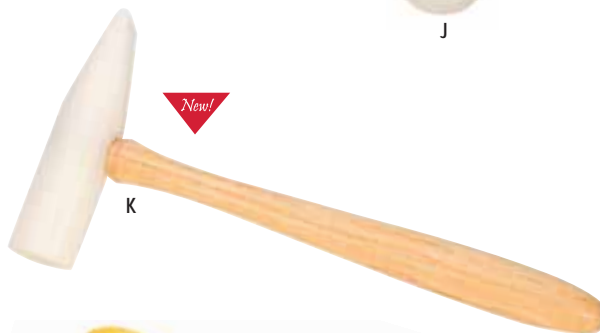

Stock #	Description	
F. HAM-372.04	Kit with Four Faces	\$19.95
G. HAM-372.10	Brass Face Dome	\$3.70
H. HAM-372.11	Brass Face Flat	\$3.70
I. HAM-372.14	Fiber Face Flat	\$3.50
J. HAM-372.15	Nylon Face Flat	\$3.50

**LARGE NYLON WEDGE HAMMER**

This new addition to our line features a nylon head with one face 1 1/4" round and slightly domed used to flatten and shape sheet and wire with no risk of marring. The other side is wedge shaped for working tight areas.

Stock #	Length.	Head Length	Weight	
K. HAM-393.00	10 3/4"	4 3/4"	7 oz.	\$10.50

**PLASTIC MALLETS**

Our plastic head mallet is made of a non-porous material that will not mar and is easily cleaned. Excellent for applications with precious metals where marring is a problem. The seasoned hardwood handle gives the user a sure grip.

Stock #	Size	Face	Head Weight	
L. HAM-411.00	1	1 1/4"	4 oz.	\$9.90
HAM-412.00	2	1 1/2"	6 oz.	\$10.50
HAM-413.00	3	1 3/4"	9 oz.	\$11.95

EXCLUSIVE

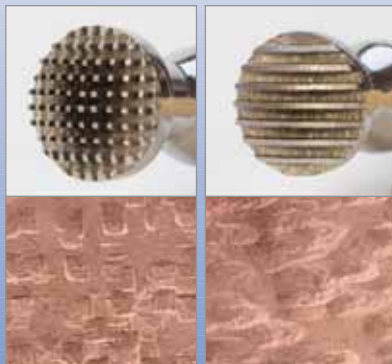

## TEXTURING HAMMERS

Texturing hammers for non-ferrous metals. Our double-sided hammers enable the user to make attractive patterns to give jewelry and other metal items a special look. Two different patterns with each hammer. Just place sheet metal on a flat metal block or anvil and strike sharply. In no time you will have interesting patterns. Hammers have a Rockwell hardness of 48, and the more the hammer is used, the more interesting the patterns become. Let your imagination take over – our hammers will provide you with a simple and easy method to give your finished piece that extra flair.

Stock #	Description	Length	Face Dia.

## HEAVY BRASS HAMMERS

Our new hammers feature a solid brass, one or two pound head. The brass head is secured onto a smooth hardwood handle. A brass hammer of this size is perfect for hammering ferrous or non-ferrous metals, and is excellent for stamping and dapping. The heavy brass head gives the user a nice "dead blow" effect which assures better performance when dapping or stamping.

Stock #	Weight	Face Dia.	Total Length	
D. HAM-455.10	1 lb.	1"	12 1/2"	\$22.95
E. HAM-455.20	2 lb.	1 1/2"	12 1/2"	\$32.50

## F. WEIGHTED RAWHIDE MALLET

This mallet is made of high grade rawhide, excellent for flattening and shaping soft metals without marring. The handle is seasoned hickory and the heads are lead filled for extra weight and nice "dead blow" which gives them greater striking efficiency for certain applications. Made in the USA.

Stock #	Size	Face Dia.	Head Weight	
HAM-407.00	7	1 1/4"	8 oz.	\$23.25
HAM-408.00	8	1 1/2"	12 oz.	\$24.42
HAM-409.00	9	1 3/4"	16 oz.	\$27.30
HAM-410.00	10	2"	20 oz.	\$33.92
